

Is your company eligible for the Research and Development Tax Credits?

Tax law provides a very broad definition of eligible Research and Development activities. When some hear research and development they think of science and laboratory testing. The tax credit is very advantageous now that it not only includes scientific companies but also includes manufacturers, software developers or enhancers, construction and more.

Sample R&D Credits

- Exterior Building Façade Manufacturer receives **\$550,000/year**
- Pharmaceutical manufacturer receives over **\$100,000/year**
- Promotional Products Manufacturer receives **\$88,000/year**
- Software Integrator receives **\$50,000/year**
- Race car exhaust system manufacturer receives **\$60,000/year**

Why Us?

We “warranty” our work. In the rare event your company is selected for an audit we provide audit defense assistance at no additional cost.

We are extremely specialized in R&D tax. Our firm only provides very limited services to assure we are experts in our field by providing undivided attention and focus to these services.

Our professionals are CPAs and established accounting experts that strive to provide the most efficient experience for our clients.
